## INTERNSHIP

### Data analyst, Upskillz

Aug '22 - Oct'22

- It was a great opportunity to work as a data analyst intern at Upskillz in collaboration with **IIT-KGP**, where I worked on some data sets and analyzed those using python libraries and tableau.

## PROJECTS

### Creating a local Database and storing required information in it

Domain: Python, MySql

Aug'22

- Created a local database using MySQL and linked it with the form built with Python and all the data was stored in the local databases.

### Stock market analysis

Oct'22

Domain: Data Science, Tableau, Kaggle, python

- Used python to analyze the stock of some big companies and how they will perform in the next few years and the information was visualized using Tableau .
- Libraries like NumPy, panda, and matplotlibs.
- Enhanced the accuracy with more training datasets by up to 90.4%.

## COURSES

### Intro to Data Science

Upgrad

May'22-Jul'22

### Data Science using Python

Udemy

Aug'21-Sep'21

### Ethical Hacking

Udemy

Sept'21-Oct'21

## ACHIEVEMENTS

- National level medal at Taekwon-do

## EDUCATION

### B.Tech. in Computer Science (Hons.)

Present Lovely Professional University | Phagwara, IN  
CGPA 7.84

Oct '20-May'24
